### Agenda Item Report

**March 10, 2026**

**Agenda Item x.x.:** Consideration of Resolution No. 2026-01– Resolution to Adopt the Forth Non-Material GSA Boundary Change

**Report Author:**

**Staff Recommendation:**

Staff recommends approving Resolution No. 2026-01 – Resolution to Adopt the Forth Non-Material GSA Boundary Change.

**Background:**

The Mid-Kaweah GSA (MKGSA) boundary is the union of the 3 jurisdictional boundaries: the City of Tulare, the City of Visalia, and Tulare Irrigation District, as defined in the September 2015 Joint Powers Agreement (JPA). With that definition, the MKGSA will grow as the City of Visalia and City of Tulare annex ground previously in the Greater Kaweah GSA (GKGSA). The MKGSA identified several annexations that require a “non-material” GSA boundary change. “Non-material” boundary changes, as defined by the Department of Water Resources (DWR) are GSA boundary changes that do not alter the subbasin boundary. Because these boundary changes are exclusively between the Greater Kaweah GSA and Mid-Kaweah GSA without changing the Kaweah Subbasin boundaries, the boundary change is considered “non-material” which are easy to implement and are done annually for accurate billing of the most current GSA boundaries.

The MKGSA boundary defined in the JPA differs from the current MKGSA boundary DWR recognizes in due to city annexations. Since the last annexation, the City of Tulare and City of Visalia grew nearly 2,000 acres in area previously located in the Greater Kaweah GSA.

After the MKGSA prepared updated boundary maps in March 2026 for GKGSA approval of a non-material boundary change, which will greatly simplify policies and billing associated with pumping restrictions. With the MKGSA resolution of approval, the changes will be submitted to DWR to implement the updated boundaries.

**Recommended Motion:**

I motion to approve Resolution No. 2026-01 adopting the Resolution to Adopt the Forth Non-Material GSA Boundary Change, addressing the error in the original TID boundary and incorporating city of Visalia and City of Tulare annexations to be effective for the 2026 water year billing cycle (October 1<sup>st</sup>, 2025 to September 30, 2026).

**Total Parcels:** 57

**Approximate Acreage:** ~2,083 acres

This table identifies parcels currently attributed to **Greater Kaweah GSA** within the **Water Dashboard system** that fall within the **Mid-Kaweah GSA boundary update adopted under Resolution No. 2024-07**. These parcels are to be **released from Greater Kaweah GSA and reassigned to Mid-Kaweah GSA** for Water Dashboard management.

## Mid-Kaweah GSA

### Agenda Item Report

**December 10, 2024**

**Agenda Item 4.a.:** Consideration of Resolution No. 2024-07– Resolution to Adopt the Third Non-Material GSA Boundary Change

**Report Author:** James Fisher, Assistant General Manager

**Staff Recommendation:**

Staff recommends approving Resolution No. 2024-07 – Resolution to Adopt the Third Non-Material GSA Boundary Change.

**Background:**

The Mid-Kaweah GSA (MKGSA) boundary is the union of the 3 jurisdictional boundaries: the City of Tulare, the City of Visalia, and Tulare Irrigation District, as defined in the September 2015 Joint Powers Agreement (JPA). With that definition, the MKGSA will grow as the City of Visalia and City of Tulare annex ground previously in the Greater Kaweah GSA (GKGSA). The MKGSA identified several annexations that require a “non-material” GSA boundary change. “Non-material” boundary changes, as defined by the Department of Water Resources (DWR) are GSA boundary changes that do not alter the subbasin boundary. Because these boundary changes are exclusively between the Greater Kaweah GSA and Mid-Kaweah GSA without changing the Kaweah Subbasin boundaries, the boundary change is considered “non-material” which are easy to implement and are done annually for accurate billing of the most current GSA boundaries.

The MKGSA boundary defined in the JPA differs from the current MKGSA boundary DWR recognizes in due to city annexations. Since the last annexation, the City of Tulare and City of Visalia grew nearly 2,000 acres in area previously located in the Greater Kaweah GSA.

After the MKGSA prepared updated boundary maps in December 2024 for GKGSA approval of a non-material boundary change, which will greatly simplify policies and billing associated with pumping restrictions. With the MKGSA resolution of approval, the changes will be submitted to DWR to implement the updated boundaries.

**Recommended Motion:**

I motion to approve Resolution No. 2024-07 adopting the Resolution to Adopt the Third Non-Material GSA Boundary Change, addressing the error in the original TID boundary and incorporating city of Visalia and City of Tulare annexations to be effective for the 2025 water year billing cycle (October 1<sup>st</sup>, 2024 to September 30, 2025).
